

Barrier Board Document Cases

As the standard in archival storage, flip-top document cases provide easy access to your important documents, photos, and similarly valued items, while providing protection from dust and light. Choose from blue/gray with a white liner, tan, or black with white liner. Also available Perma/Dry (water repelling) and Moisture Resistant Corrugated. All our document cases are acid-free and buffered with 3% calcium carbonate to help maintain a safe environment and provide protection from migrant acidity to help prevent deterioration. Price each.

Perma/Cor Corrugated Boards E-Flute and B-Flute

This strong, smooth, lightweight pale blue-gray Perma/Dur Corrugated Board is acid-free, lignin-free and alkaline buffered with 3% calcium carbonate added for an alkaline reserve in all three layers for maximum protection. E-Flute is half the thickness of standard B-Flute with nearly the same strength. Excellent choice for boxmaking, print backers, picture framing, dividers - wherever a sturdy, light board is required. Price per package.

Perma/Dur Buffered Bond Paper

Our exclusive Perma/Dur (a contraction for Permanent and Durable) is an excellent archival quality, acid-free paper with a 3% calcium carbonate buffer offered at a moderate price. It is a premium quality paper with a potential life of over 300 years. Perma/Dur Bond is an excellent choice for reproductions, thesis reports or books, or anywhere durability and longevity are a factor. Ideal for laser printing, ink jet printing or xerographic or lithographic processes. Ledger is used for lightweight folders, special envelopes and the like.

Heavy-Duty Roll Storage Tubes

Made with acid-free, blue-gray Perma/Dur, buffered with an alkaline reserve of approximately 3% to prevent acid-migration. Water resistant, neutral pH adhesive is used in the construction of these tubes. Ideal for storage and shipping of textiles, tapes, carpets, posters, large maps, etc. End caps are sold separately. Prices per package.

100% Rag Herbarium Mounting Paper

Our finest archival quality 100% Rag Herbarium Mounting Paper. This superior paper is off-white with a moderately textured surface for excellent adhesion of mounting strips or adhesive. These 11.5" x 16.5" sheets are available in three different thicknesses. The grain direction is parallel to the long dimension to assure ease in handling after specimens have been mounted. This paper is, of course, acid-free and lignin-free with a pH of 8.5+/- .5. Unbuffered is available in heavyweight only. Price per package of 100 sheets.

Buffered & Unbuffered Acid-Free Interleaving Tissue

Unbuffered tissue is acid-free and is recommended for use with colored prints, textiles and watercolors. Cyanotype, dry transfer or chromogenic prints also require unbuffered tissue. This tissue is an excellent choice for separating prints, drawings or lithographs and protecting artifacts. In addition, unbuffered tissue is used with silk, leather, and other animal protein based textiles. Very thin (.001) 16 gm² tissue for maximum translucency. More sizes available online.
